### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Applicant's amendment together with the Declaration submitted by Dr. Wei have overcome the prior art of record. Specifically, the Declaration shows unexpected results by comparing the present invention to exemplary compositions of Hayward and Mitra. Furthermore, as is clear from the data generated by Dr. Wei, the compositions of the present invention deposit substantially more lipid (benefit agent) to the skin than any of the seven comparative examples. The inventive example deposited approximately 80% more lipid than the comparative example with the greatest deposition amount (Example 1 of Mitra, 50:50). And the inventive example deposited 120% more than the average of the seven comparative examples. These results are not only substantial, they are surprising and unexpected. The surprising results are achieved because the compositions of this invention deliver the benefit agent in a substantially different way than Mitra or Hayward. That is, the stripe containing the benefit phase is substantially free of surfactants and water. Hayward and Mitra teach that both phases should have surfactants and water, see for example, every example in each case. The present claims are amended herein to be commensurate in scope with the inventive composition that produced the surprising and unexpected results. Accordingly, the present claims are not obvious over either of Hayward or Mitra and therefore are considered allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1796

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
